Sir,

In reply to your No.J.2393/Legis 28-10, dated 21st February 1911, I have the honor to state that after carefully studying the rules of the different Governments on the subject, I am of opinion that those issued by the Government of THE UNITED PROVINCES with very little modification, may be advantageously adopted for the purpose of our Regulation

2. In regard to the draft of the rules to be issued under Section 10 (2) of the Regulation which is peculiar to this State, I beg to state that since many Medical Practitioners & Chemists & Druggists in our State ply their trade without being possessed of any academical qualification whatsoever, the safest thing seems to me to be to insist upon all dealers in poisons, whether they be ordinary merchants or Medical & Veterinary Practitioners & Chemists & Druggists, taking out licenses.

3. Draft rules with the needful modification, are herewith submitted.
